Driver Vehicle Readiness																																																																																																																																																																																																																				
Rear in seat																																																																																																																																																																																																																				
Adjust mirrors, head restraint																																																																																																																																																																																																																				
Windows up, doors locked																																																																																																																																																																																																																				
Belts on																																																																																																																																																																																																																				
Headlights on																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
Exit lot turn right																																																																																																																																																																																																																				
Signals 100 ft. or 5 sec. ahead																																																																																																																																																																																																																				
Side position 3 feet away																																																																																																																																																																																																																				
Forward position @ pedestrian zone																																																																																																																																																																																																																				
Verbalizes Front Limit RP																																																																																																																																																																																																																				
@ Front limit searches 90° LFR																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
Managing Time & Space																																																																																																																																																																																																																				
Sees LOS-POT zone changes																																																																																																																																																																																																																				
Checks related zones																																																																																																																																																																																																																				
Gets best speed control																																																																																																																																																																																																																				
Gets best lane position																																																																																																																																																																																																																				
Sees open/closed zones																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
Approach <u>Walton Rd.</u> - Turn right																																																																																																																																																																																																																				
Alert! Sees stop light in target area																																																																																																																																																																																																																				
Reduces speed checks rear																																																																																																																																																																																																																				
45° search LFR																																																																																																																																																																																																																				
Looks into turn before turning																																																																																																																																																																																																																				
Trail brake maintains speed to TP																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
Beyond 1st. St.- Curb park																																																																																																																																																																																																																				
Check rear, signal																																																																																																																																																																																																																				
Apply brake																																																																																																																																																																																																																				
Verbalize right side limit Ref. Point																																																																																																																																																																																																																				
3 to 6 inches from curb																																																																																																																																																																																																																				
Reverse two car lengths along curb																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
Re-enter traffic																																																																																																																																																																																																																				
Release parking brake																																																																																																																																																																																																																				
Check mirrors, signal left																																																																																																																																																																																																																				
Check for open gap/path																																																																																																																																																																																																																				
Get best lane position																																																																																																																																																																																																																				
Cancel Signal																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
At <u>Bucannon</u> turn left - stopped																																																																																																																																																																																																																				
45° search LFR																																																																																																																																																																																																																				
Searches to target area																																																																																																																																																																																																																				
Turns head then turns wheel																																																																																																																																																																																																																				
Forward position @ pedestrian zone																																																																																																																																																																																																																				
Verbalizes Front Limit RP																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
At <u>Mcallister</u> turn left - stopped																																																																																																																																																																																																																				
Signals 100 ft. or 5 sec. ahead																																																																																																																																																																																																																				
Side position LP2 or LP1																																																																																																																																																																																																																				
Staggered stop																																																																																																																																																																																																																				
Legal stop @ pedestrian zone																																																																																																																																																																																																																				
@Front limit 90° search LFR																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
At <u>Hunter</u> - turn left -moving																																																																																																																																																																																																																				
Time arrival for open zone																																																																																																																																																																																																																				
Reduces speed, checks rear																																																																																																																																																																																																																				
Merge into left turn lane																																																																																																																																																																																																																				
Search LFR																																																																																																																																																																																																																				
Sees clear path before gas																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
At <u>Cove hwy</u> - Turn right																																																																																																																																																																																																																				
Searches to target area																																																																																																																																																																																																																				
Evaluates rear zone																																																																																																																																																																																																																				
Alert! LOS-POT zone changes																																																																																																																																																																																																																				
Gets best LP																																																																																																																																																																																																																				
Maintains 4-sec following																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
Approach S-Curves Lt./Rt.																																																																																																																																																																																																																				
Sees Curves in target area																																																																																																																																																																																																																				
Checks all zones for options																																																																																																																																																																																																																				
Speed reduction, checks rear																																																																																																																																																																																																																				
LP3, LP1, LP1, w/ open zones																																																																																																																																																																																																																				
LP2,LP3, LP1, w/ open zones																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
On <u>Island Ave-</u> lane changes																																																																																																																																																																																																																				
Evaluates zones checks blind spot																																																																																																																																																																																																																				
Makes/keeps open side space																																																																																																																																																																																																																				
Signals right & moves to LP 3																																																																																																																																																																																																																				
Gets a commitment																																																																																																																																																																																																																				
Enters new lane in LP 2																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
On <u>Island Ave</u> - lane changes																																																																																																																																																																																																																				
Evaluates zones checks blind spot																																																																																																																																																																																																																				
Makes/keeps open side space																																																																																																																																																																																																																				
Signals left & moves to LP 2																																																																																																																																																																																																																				
Gets acommitment																																																																																																																																																																																																																				
Enters new lane in LP 3																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
After right on <u>Adams Ave</u> - intersections																																																																																																																																																																																																																				
Alert! Light in target area																																																																																																																																																																																																																				
Time arrival for green																																																																																																																																																																																																																				
Adjust speed																																																																																																																																																																																																																				
Checks rear zone																																																																																																																																																																																																																				
Checks LFR for open path																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				
At <u>4th St</u> turn right-angle park																																																																																																																																																																																																																				
Effective Communication																																																																																																																																																																																																																				
Side Position 3 feet away																																																																																																																																																																																																																				
45° target right, go forward/right																																																																																																																																																																																																																				
Evaluate alignment to space																																																																																																																																																																																																																				
Stop before crossing curb line																																																																																																																																																																																																																				
Total Points Possible -5-																																																																																																																																																																																																																				

At Jefferson turn right-parallel park

At Adams Ave. turn right

***Dynamic Time and**

TSE Training Evaluation Route
Final Drive Assessment - LaGrande

Back to rear pivot point	
Check left-front corner swing	
Creep and turn wheel fully	
Move car to 45° angle	
Creep and time to clear front car	
Total Points Possible -5-	
On N Ave-approach 2 way stop	
Alert! Sees stop sign in target area	
Reduces speed, checks rear	
Smooth stop no pitch felt	
FrontPosition @ pedestrian zone	
@ Front limit searches 90° LFR	
Total Points Possible -5-	
Approach Intersection - Straight	
Alert! LOS-POT zone changes	
Closed LOS-POT reduce speed	
Checks rear zone	
45° Search LFR	
See clear path before gas	
Total Points Possible -5-	
On O Ave - intersections uncontrolled	
Sees LOS-POT zone changes	
Checks related zones	
Gets best speed control	
Gets best lane position	
Communicates effectively	
Total Points Possible-5-	
At Geekler- turn left	
Signals 100 ft. or 5 sec. ahead	
Side position LP2 or LP1	
Staggered stop	
Legal stop @ pedestrian zone	
@ Front limit 90° search LFR	
Total Points Possible-5-	
Approach Intersection - Straight	
Alert! LOS-POT zone changes	
Closed LOS-POT reduce speed	
Checks rear zone	
45° Search LFR	
See clear path before gas	
Total Points Possible -5-	

Adjusts speed/front closure rate	
Keep 4 seconds of time	
Reads traffic 12-30 seconds ahead	
Responds to communications	
Verbalize benefits of 4 seconds	
Total Points Possible -5-	
At I-84- Enter freeway	
Checks rear zone	
Keeps 4 seconds of space	
Slow speed on ramp	
Search for gap to enter	
Signals and checks blind spot	
Total Points Possible -5-	
At Island Ave - Exit Freeway turn right	
Plan ahead, searches to target area	
Signals 5 seconds ahead	
Maintains speed to exit ramp	
Reduces speed on exit ramp	
Checks rear zone	
Total Points Possible -5-	
At Lot - turn right - Before	
Alert! LOS-POT in target area	
Signals 100 ft. or 5 sec. ahead	
Reduce speed, check rear	
Side position 3 feet away	
45° or 90° search LFR	
Total Points Possible -5-	
In Lot- perpendicular Park	
Effective Communication	
Side Position 3 feet away	
45° target left, go forward/left	
Evaluate alignment to space	
Back to pivot point, turn wheel	
Total Points Possible-5-	
Basic Skills	
Pivots on heel from braketo gas	
Steering Control @ 9 & 3 or 8 & 4	
HOH for right turns	
P-Pull for curves and left turns	
Shifts Efficiently	
Total Points Possible-5-	

Space Management	
Managing Time & Space	
<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> Sees LOS-POT zone changes	
<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> Checks related zones	
<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> Gets best speed control	
<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> Gets best lane position	
<input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/> Communicates effectively	
Total Points Possible -5-	
Formula	
Total Points Possible - (P)	140
Total Deductions - (A)	
Total Points - (AP)	
AP ÷ P = Score	
Example	
(AP)126 ÷ (P)140 = 90%	

Must score 80% or above to pass
